DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

**Commissioner for Patents**

The election response, filed on January 30, 2008, is considered non-responsive because as discussed with the attorney of record that the Examiner would like for Applicants to elect a specific Toll-like 7 receptor agonist or a specific Toll-like 8-receptor agonist and a specific Toll-like 4 receptor agonist. Applicants election is too broad to search and would be a search burden on the Examiner because the subject matter embraces a variety of compound classes and would require a variety of searches. Applicants are suggested to elect a species such as example 3 on page 8 of the specification. Electing a species would be considered a responsive reply.

Applicants are given one (1) month or thirty (30) days from the mailing date of this notice, whichever is longer to correctly respond to the restriction requirement.

/Kamal A Saeed, Ph.D./  
Primary Examiner, Art Unit 1626
